## RAPIDFIRE Polttoleikkauspuikon Sytytin

RapidFire® cutting rod igniters are an expedient means of igniting an exothermic torch without the requirement for an auxiliary 12 volt battery. The RapidFire® cartridge is unique to Broco® and the key to the lightweight portability of our tools.

1. Fit RapidFire® igniter cartridge to end of cutting rod.

2. Press against hard surface to break seal.

3. Introduce light oxygen flow.

4. Within 5 seconds cutting rod ignition is achieved.
